Dear Members and Interested Public

We are pleased to announce the opening of NHF-Wales!

We are a husband and wife team who own and run a mail order Natural Health shop, based just outside Caerphilly in South Wales. We are very pleased to be able to help Scott and his team at the NHF by opening a local branch in Wales. We are also happy to cover England too while there is a vacancy for this position.

We see it as such a positive move for the NHF to be 'opening international branches' who can help their country's people deal with local issues, with the reassurance that Scott and the Federation are fighting the 'belly of the beast' all the while! In this way the NHF is becoming a unique organisation, and while other organisations are centralising and becoming further away from the people, the NHF is doing the opposite, and growing larger by bringing their people more closely and more accessible to their members.

We are very honoured to have Scott Tips, the President of the National Health Federation visit us in South Wales very shortly and we would like to invite you to an informal gathering with Scott at the Crossways Inn, Caerphilly on Wednesday 30th March 2011 from 7pm. We understand that this may be quite far for some of you to travel, however if you do fancy coming along the Crossways Inn is right next to a Premier Inn Hotel! If you need directions, or wish to book a free place (or places) at the meeting, please contact us directly at [wales@thenhf.com](mailto:wales@thenhf.com).

From this meeting we are planning to hold regular monthly gatherings (sadly this will be without Scott!) in the South Wales area whereby members may come along and help to set up campaigns, meet other occasional special guests, watch informational DVDs, swap information, share concerns, and meet like-minded people. It will also be a chance for members and non-members to come along to find out more about the NHF's work and voice their concerns about local issues.

We do hope you can make it! **[Click here for poster of event.](#)**

Please feel free to contact us if you have any queries or concerns at all - as we will do our best to answer any questions you may have regarding the current threats to our

health freedom, your membership with NHF, or anything else that may be going on! If we can't answer your query, we will try to find it out for you!

With warmest wishes

Lloyd & Danielle Bryant
