## **Your Constitution – Your Health Conference November 2, 2014 – Birmingham, England**

Scott Tips, President of the NHF, is one of the speakers at “**Your Health - Seven Keys to Survival in a Post-Antibiotic World**,” a conference which takes place on **Sunday 2nd November 2014**, at **The Ramada Birmingham-Sutton Coldfield Hotel, England**. His presentation is entitled “Health legislation hidden in plain sight.”

The event has been quickly drawn together in the last few weeks, momentum coming from an ever-swelling catalogue of incidents around the world. Ebola is just the tip of the proverbial iceberg!

This is part of the “*Your Constitution – Your Health*” Weekend, where the Saturday will see the British Constitution Group hold their annual conference, this year entitled “Your Constitution – The Day The UK Stood Still.” This part of the conference weekend happens on the day, 1<sup>st</sup> November 2014, when 43 areas of UK governance and laws are transferred to the EU bureaucracy, with hardly a mention from anyone. There’s a special deal if you want to attend both days and both conferences, details towards the end of this article.

The dual conference has been brought to life with the active participation of Doomwatch Events, a spin-off from the **Doomwatch** radio show (with pictures – see [www.doomwatch.com](http://www.doomwatch.com)) that you can find on UK Column Live and Peterborough FM. There is already an impressive speaker line-up of leading international experts in their respective fields, with more to be announced.

Although the subject matter of both conferences is serious, there will be solutions which will empower you. We all need to address that we have only seven years to stop a UK health apocalypse. The speakers for “Your Health...” will outline the possibilities for preventing this from happening, via hard facts and qualified research which is meant to encourage a transformation. They are leaders in cutting edge, scientific natural solutions, and will detail how you can effectively treat infection. In the end, it will be simple knowledge that can save you, your friends, and family... now! You will depart the day well-informed about your options, and knowing how to stay alive.

This is probably the only conference on the planet to bring you the combination of speakers who will be with us for this event of enlightenment. For instance, one solution that they have spent over a million Dollars of research on is now being deployed by Harvard Medical School throughout their hospitals.

Here is the provisional list of other speakers who have confirmed their intention to speak at the conference:

**Dr Tom Levy** – “Stopping infections with Vitamin C.” Bringing together 90 years of research on stopping infection - life threatening or otherwise – we present to you the World's expert in Vitamin C. Tom is a Board-Certified Cardiologist and the author of ‘Curing The Incurable’, ‘Primal Panacea’ and ‘Stop America's #1 Killer!’. He frequently lectures to medical professionals all over the globe about the use of antioxidants in the treatment of medical conditions and diseases.

**Dr Lyn Hanshew** – “Natural products which halt disease.” A leading consultant in cutting-edge, million dollar researched natural products designed to stop disease in its tracks, Lyn is Board-Certified in Family Medicine and Bariatric Medicine (weight management), with specialised training in the successful treatment of Autism, ADD, Chronic Fatigue, MS, Anxiety, Depression and Cancer.

**Dr George Georgiou** – “Russian space-age medicine for you.” A leader in hospital research into beating infection with the latest Russian "space-age" technology, George is the Director of the Da Vinci Centre, and a Holistic Medicine Practitioner with over 22 years in education and 27 years in clinical practice.

**Dr Peter H Kay** - “Using your DNA blueprint for optimum health.” Dr Kay co-founded Homeovitality with Dr S Rashid. Homeovitality has been developed as a safe and natural way to help everyone to achieve nature's "super-health" and stay healthy. The system uses highly diluted DNA molecules with precise sequences to target genes that produce the body's natural proteins, which have been proven to promote health as well as protect against and resolve many diseases.

**Dr Graham Downing** - “Treating the coming plagues”. This will tackle everything from pneumonia to gastrointestinal infections, effectively treating them all without antibiotics.

Tickets for the conferences are £45.00 per person per day, or £70.00 per person for the entire weekend (the “Your Health...” conference plus the British Constitution Group’s Saturday conference) - save £20.00 each when you book both conferences at the same time. Although in different subject areas, there is a resonance between the two events which might surprise you.

Staying the weekend allows you time to network with like-minded people. Book three nights B&B (Friday, Saturday, and Sunday) and not only can you make a holiday break of your stay, but also save £30.00 on the standard conference rates. The deal can get the cost of Bed & Breakfast down to as low as £27.50 per person per night

Bonus evening entertainment includes “*Slaughtered on Suspicion – The Foot and Mouth 2001 Scandal*” documentary premiere on Saturday, and alex:g (*On The Edge* and *Doomwatch*) presenting “Pandemic Apocalypse on Film and TV” on Sunday. You can also catch “*Doomwatch Alive*” on both nights, a chat show format featuring a host of special guests. All of this gives you added reason to stay on overnight, in addition to the networking you can enjoy in our conference bar.

An extensive leisure club offers the opportunity for a full workout, social steady exercise or relaxation. The indoor leisure pool includes a spa pool, steam room and sauna. All free to those who have booked accommodation.

To book, surf on over to the following website to get your tickets, and gather further information:  
[www.doomwatch.biz](http://www.doomwatch.biz)

It promises to be an excellent conference, and indeed an incredible weekend. So, don't delay, book today, as not only are places limited in the conference theatre, but bedrooms at the 'heart of the action' are, too.
