DONATE TO THE PEOPLE WHO PROTECT YOU AND YOUR LOVED ONES

Category: News Releases
Published: 29 December 2016

Dear Supporters,

To all of you who have faithfully donated in the past, I truly thank you. You have been the ones who have kept the National Health Federation alive and active on the World stage literally creating global policies. You are the ones helping to change for the better the health of 7 billion souls worldwide, most of whom live in lands you may never visit.

Some people spend an entire lifetime wondering if they made a difference in the World. But NHF members don't have that problem. You and our other members know that the return on your investment in our national and international work is visible and measurable.

I would like you to please consider a gift of \$50 or more. The stakes are high, current problems serious, and lives will suffer and may even be lost. Together we will make the vital difference and leave a strong legacy for the future. NHF has the answers and a proven track record since 1955 in championing causes that threaten you and your loved ones. [Please donate to the Federation today](#). It is more important than ever.

Your gift solves pressing and urgent global threats. NHF invites your active participation alongside other committed, responsible, and responsive members as we meet vital challenges together that threaten our health and health freedom.

Best wishes, and my thanks,

Scott Tips
NHF President
On behalf of the NATIONAL HEALTH FEDERATION
