

DON'T EVEN THINK ABOUT IT!

We know that you are planning more mischief to take advantage of the current COVID-19 disease “crisis,” including proposing mandatory chipping & vaccinations. **Don't even think about it!**

We know that you have already wrecked the economy over a disease that has caused fewer deaths than from seasonal flu and fewer than occurred in 2017, when there was no panic and no lockdowns and removal of our civil and constitutional rights.

We know that you have lied to us through the media, your control over the internet and social media, and in your political speeches.

We know that 98% of the people who contract COVID-19 live and even end up with life-long immunity to it.

We know that the media's claim that hospitals are over-flowing with COVID-19 patients is a complete lie.

We know there is no test for COVID-19 and your claimed deaths include 80% who died of another disease.

We know that COVID-19 is easily treated with intravenous Vitamin C, or with a combination of hydroxychloroquine sulfate, zinc, and Z-pak, or even simply with zinc.

We know that COVID-19 is not deadly except with co-infections such as tuberculosis.

We know that you intend to use this so-called crisis as an excuse to take away many of our constitutional and civil liberties all in the name of “public health.”

We know that you intend to implement Bill Gate's plan to chip each man, woman, and child under the cover of “determining each person's health status.”

We know that you intend to implement Bill Gate's other plan to forcibly and at the point of a gun vaccinate the entire population of our country.

We know that vaccine safety has never been proven, nor even its efficacy, and that the U.S. Supreme Court has declared vaccines to be “unavoidably unsafe.”

DON'T EVEN THINK ABOUT IT!

We demand that each and every one of you – our public servants – sign the accompanying Pledge (or at <https://thenhf.com/2020/04/04/pledge/>) that you are opposed to mandatory chipping and vaccinations and will vote against and not enforce any legislation mandating such.

We know your names, we know how many of you have conflicts of interest because you take money from the pharmaceutical industry, and we know how you vote and/or act. Any failure on your part to fulfill your Oath of Office and to protect our constitutional and civil rights will be **LONG** remembered. So, do NOT even think about violating that oath by pushing through or enforcing any legislation that would require human chipping or mandatory vaccines.
