

*We give Thanks to You all for Your Support for Health Freedom*

*November 26, 2020*

*In this time of global uncertainty, we at the National Health Federation are profoundly thankful and grateful for our health-freedom family both in America and around the World.*

*Just as in that first Thanksgiving, we realize anew how blessed we are and how much we have faced and overcome together. Together, and despite the current changes in the World, we will go from strength to strength in true gratitude knowing we stand united in courage and hope.*

*Happy Thanksgiving to those in America and in much gratitude to all of our freedom-loving friends around this beautiful Planet.*

*Warmly,*

*Scott C. Tips,*

*National Health Federation President, NHF Board of Governors, and staff*
