

National Health Federation

CODEX

- PROTECTING U.S. FOOD FROM INTL DISPARAGEMENT

NHF is the only natural health org allowed to negotiate at the yearly meetings of Codex, the WTO-enforced international food trade regulatory body. Constantly NHF has to beat back attempts by Big Pharma and Big Agra to coerce FDA harmonization with weakened supplements or dangerous toxins

Regulatory Capture

- STOPPING SPECIAL INTEREST CORRUPTION OF SCIENCE

NHF combats corrupt influence by special interests of agencies like CDC (faulty vaccine science), EPA (science-free fluoridation and lax air pollution), FCC (safety-free 5G), FDA (natural persecution), and DoAg (toxic farming) and elsewhere in government.

For Questions, go to <https://thenhf.com/campaigns/>

or Charles.Frohman@theNHF.com

The National Health Federation (NHF) is the World's oldest 501(c)(4) health-freedom organization, having since 1955 defended natural food and therapies from government interference and corruption.

Codex - Since 2002, when the NHF was accredited by the Codex Alimentarius Commission as a Codex INGO, NHF has participated very actively at Codex Commission and Committee meetings around the World, impacting global food standards and guidelines for 7 billion people. Codex is the international, World Trade Organization-enforced food-trade regulator created under the auspices of United Nation's Food and Agriculture Organization (FAO) and World Health Organization (WHO). NHF is the only health-freedom organization accredited to attend Codex meetings where Big Ag & Big Pharma interests consistently attempt to limit supplement potency, relax restrictions on toxic additives (like arsenic, mercury, lead, ractopamine & aspartame) to food, formula, meat or farm animals; or pervert labels like "organic." In 2008, NHF helped eliminate 3/4ths of the aluminum additives used in foods, prevented in 2009 "dumbed down" vitamin-and-mineral potency values, and exposed in 2014 FDA's attempted harmonization with these low values.

Regulatory Capture - NHF also seeks an end to the regulatory capture that corrupts science - thus endangering the health of humanity

- 5G & the Federal Trade Commission (Federal Communications Commission)
 - Over 400 scientists and doctors in the "5G Appeal" (2017) called for a moratorium on telecommunications deployment of small cell towers until an INDEPENDENT investigation on the long term health effects of the novel, higher frequency radiofrequency (RF). Wireless companies testified in 2018 to Senator Blumenthal they did not support human research, and the FTC faces lawsuit for refusing to update "health standards".
 - FTC in 2018 nationalized rollout, against opposition by US conf of Mayors; some local govts - in Hawaii County & Doylestown, PA - have blocked deployment
- Vaccines & the Centers for Disease Control and Prevention (CDC)
 - Despite a chronic disease childhood epidemic rising from 12% when Congress immunized in 1986 pharma from vaccine harm liability to 50% today, the National Academy of Sciences' Health Division reported in 2013 the need to research the 72 vaccines given together; one researcher, CDC's William Thompson, admitted fraud in his 2004 study denying an autism connection - Congressman Posey requested a hearing in 2016
 - The HHS 2018 religious freedom enforcement office needs to preempt State denial of religious vaccine exemptions
- Water & Air Pollution and the Environmental Protection Agency (EPA)
 - NHF supports the lawsuit to compel the EPA to stop toxifying water with fluoride and supports a new hearing on jet pollution
- Farm produce & the Department of Agriculture (DoAg)
 - Support GMO labeling & oppose weakening of "organic" standards, rGBH dairy doping as well as ractopamine farm animal "doping"
